<u>Comments/Historical Information</u> Chapter 1055, Statutes of 1983 created the Mosquitoborne Disease Surveillance Account to collect funds to support the State Department of Health Services' vectorborne disease prevention programs. In 2002, the Legislature inadvertently repealed the statutory authorization for the account, although it did not repeal the statutes authorizing the department to spend the money in the account. SB 1051 was enacted, which includes an urgency statute, in order to reauthorize the account at the earliest possible time, so as to address the emerging public health and safety threats posed by vectorborne diseases. This bill changes all references to the Mosquitoborne Disease Surveillance Account to the Vectorborne Disease Account, effective May 7, 2004. Original Administrative Organization Code 4260 was changed to 4265 due to the Department of Health Services splitting into two departments effective July 2007 according to Chapter 241, Statutes of 2006 (SB162).
